PATIENT WAS TREATED WITH COOLSCULPTING® ON HER ABDOMEN. RESULTS MAY VARY. RESULTS CAN BE SEEN AS EARLY AS 1-3 MONTHS AFTER COOLSCULPTING® TREATMENT.

***Terms and Conditions:** Savings offer is only valid for new and existing members of the Brilliant Distinctions® Program and can only be redeemed at participating provider offices. \$500 savings offer can only be redeemed when six (6) or more CoolSculpting® cycles are purchased during an office visit at participating Brilliant Distinctions® provider offices that carry CoolSculpting®. \$800 savings offer can only be redeemed when six (6) or more CoolSculpting® cycles and four (4) CoolTone™ treatments are purchased during an office visit at participating Brilliant Distinctions® provider offices that carry both CoolSculpting® and CoolTone™. A healthcare provider will decide if member is an appropriate candidate for a CoolSculpting® or CoolTone™ treatment. Members will earn Brilliant Distinctions® points on their treatment, for up to sixteen (16) CoolSculpting® cycles and sixteen (16) CoolTone™ treatments in a rolling twelve (12) months. Offer can be used on treatments above sixteen (16) cycles but any transactions above the sixteen (16) cycle max will not earn the member Brilliant Distinctions® points. Offer can be combined with Brilliant Distinctions® Rewards and Gift Cards, but cannot be combined with any other CoolSculpting® rebates, coupons, or offers. One (1) offer per member. The entire offer must be redeemed in one (1) transaction. This is a limited-time offer through August 31, 2020 or while supplies last. Once the offer is redeemed, the treatments purchased do not expire. Allergan reserves the right to alter or cancel the offer at any time. We will be monitoring use of the program, if there is any indication of fraud, there is potential for your Brilliant Distinctions® access to be terminated.

The safety and efficacy of CoolSculpting® and CoolTone™ in combination have not been evaluated by the FDA.

CoolSculpting® Uses

The CoolSculpting® procedure is FDA-cleared for the treatment of visible fat bulges in the submental (under the chin) and submandibular (under the jawline) areas, thigh, abdomen and flank, along with bra fat, back fat, underneath the buttocks (also known as banana roll) and upper arm. It is also FDA-cleared to affect the appearance of lax tissue with submental area treatments. The CoolSculpting® procedure is not a treatment for weight loss.

CoolSculpting® Important Safety Information

The CoolSculpting® procedure is not for everyone. You should not have the CoolSculpting® procedure if you suffer from cryoglobulinemia, cold agglutinin disease, or paroxysmal cold hemoglobinuria.

Tell your doctor if you have any medical conditions including recent surgery, pre-existing hernia, and any known sensitivities or allergies.

During the procedure you may experience sensations of pulling, tugging, mild pinching, intense cold, tingling, stinging, aching, and cramping at the treatment site. These sensations subside as the area becomes numb. Following the procedure, typical side effects include temporary redness, swelling, blanching, bruising, firmness, tingling, stinging, tenderness, cramping, aching, itching, or skin sensitivity, and sensation of fullness in the back of the throat after submental or submandibular area treatment.

Rare side effects may also occur. CoolSculpting® may cause a visible enlargement in the treated area which may develop two to five months after treatment and requires surgical intervention for correction.

CoolTone™ Uses

The CoolTone™ device is FDA-cleared for improvement of abdominal tone, strengthening of the abdominal muscles, and development for firmer abdomen. CoolTone™ is also FDA-cleared for strengthening, toning, and firming of buttocks and thighs.

CoolTone™ Important Safety Information

The CoolTone™ procedure is not for everyone. You should not have the CoolTone™ treatment in areas with metal, electrical, or electronic implants/devices like cardiac pacemakers, implanted hearing devices, implanted defibrillators, implanted neurostimulators, drug pumps, or hearing aids.

Tell your doctor if you have any medical conditions as CoolTone™ should not be used over a menstruating uterus, over areas of the skin that lack normal sensation, in patients with fever, malignant tumor, hemorrhagic conditions, epilepsy, recent surgical procedure, pulmonary insufficiency, or pregnancy.

CoolTone™ should be used with caution in patients with Graves' disease (an autoimmune disorder that causes overactive thyroid), active bleeding disorders, or seizure disorders.

Women who are close to menstruation may find that it comes sooner, or cramping is increased or intensified with CoolTone™ treatments, therefore, it is recommended to not undergo treatment during this time of the month.

CoolTone™ should not be used in the heart or head areas, areas of new bone growth, over the carotid sinus nerves, or over the neck or mouth. CoolTone™ should not be applied over swollen, infected, inflamed areas or skin eruptions. Caution should be used for patients with suspected or diagnosed heart problems.

Common side effects may include, but may not be limited to, muscular pain, temporary muscle spasm, temporary joint or tendon pain, and redness at or near the treatment site.

Please see full Important Safety Information for additional information at coolsculpting.com/cooltone.

Ask your Healthcare Provider if CoolSculpting® or CoolTone™ is right for you.
